

## **#S58 ROLLER-WRINGER - CELLULOSE SPONGE MOP.**

Remember this that Fuller had back in the 1990s? New USA supplier, same quality. 9" wide. **Cellulose is the "dense" sponge, not flimsy foam rubber.** Very sturdy - Made to last. Rust-resistant steel, convenient wringer.

**Complete with 50" steel handle, \$29.99. [3 lbs - shipped usps with handle apart for a 28" long box.]**

#SR58 Replacement heads \$15.

### **MADE IN USA**

**Save \$3 - Complete with extra head \$42.**

SHIPPING cost from Maine varies \$8+ - inquire.

**This is actually a more sturdy replacement for the #129 rectangular Spongemop that Fuller discontinued a few years ago.**

### **INSTRUCTIONS:**

Handle is shipped in two sections. For easy assembly, Put together by hand then turn around and tap top handle a few times on carpeted floor to seat together into the bottom section. It will seat tightly and pretty much permanently.

To change mophead, note how it is assembled, to re-assemble. I generally install the head before shipping. Loosen by pushing the lever all the way down and then slide the head sideways off the tightening prong. To re-install, slide prong into slot on mophead, center handle over mophead and pull up the lever until it pops in.

Any questions, please email or call.

Roland Rhoades, 10 Blackberry Ln, Gorham ME 04038
